| EHCP | Usually your child will also need specialist support in school from a professional outside the school. | The school (or parent/carer) can request that the Local Authority carry out a statutory assessment of your child’s needs. This is a legal process which sets out the amount of support that will be provided for your child.  
After the school have sent the request to the Local Authority (with a lot of information about your child, including some from you), they will decide whether they think your child’s needs (as described in the paperwork provided), seem complex enough to need a statutory assessment. If this is the case they will ask you and all professionals involved with your child to write a report outlining your child’s needs. If they do not think your child needs this, they will ask the school to continue with the support at SEN Support.  
After the reports have all been sent in the Local Authority will decide if your child’s needs are severe, complex and lifelong and that they need more support in school to make good progress. If this is the case they will write an EHCP. If this is not the case, they will ask the school to continue with the support at SEN Support and also set up a meeting in school to ensure a plan is in place to ensure your child makes as much progress as possible.  
The EHCP will outline the number of hours of individual/small group support your child will receive from the LA and how the support should be used and what strategies must be put in place. It will also have long and short term goals for your child.  
The additional adult may be used to support your child with whole class learning, run individual | This type of support is available for children whose learning needs are:  
- Severe, complex and lifelong  
- Need more hours of support in school |
programmes or run small groups including your child.

3. How can I let the EY setting/school know I am concerned about the progress of my child/young person in school?

- If you have concerns about your child's progress you should speak to your child's class teacher initially.
- If you are not happy that the concerns are being managed and that your child is still not making progress you should speak to the SENDCo or Headteacher.
- If you still feel your concerns are not being listened to or responded to you can speak to the school SEND Governor Mrs Amy Duncan.

4. How can I let the EY setting/school know I am concerned about the progress of my child/young person in school?

If your child is identified as not making progress the school will set up a meeting to discuss this with you in more detail and to:

- Listen to any concerns you may have too.
- Plan any additional support your child may receive.
- Discuss with you any referrals to outside professionals to support your child’s learning.

5. How is extra support allocated to children and young people and how do they move between the different levels?

- The Head Teacher and the SENDCo discuss all the information they have about SEND in the school, including:
  - the children getting extra support already
  - the children needing extra support
  - the children who have been identified as not making as much progress as would be expected
